

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Sam Gambacorta
DOCKET NO.: 05-25501.001-R-1
PARCEL NO.: 05-29-402-047-0000

The parties of record before the Property Tax Appeal Board are Sam Gambacorta, the appellant, by attorney Timothy A. Gambacorta of Chicago, and the Cook County Board of Review.

The subject property consists of a 50-year-old, one-story, single-family dwelling of masonry construction containing 1,427 square feet of living area and located in New Trier Township, Cook County. Features of the home include two full bathrooms, a full-unfinished basement, a fireplace and a two-car attached garage.

The appellant, through counsel, appeared before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. However, the appellant's comparable three is prorated with one or more parcels, consequently, it will not be used in this analysis. The appellant also submitted a one-page letter, photographs and Cook County Assessor's Internet Database sheets for the subject and the suggested comparables as well as a copy of the board of review's decision. Based on the appellant's documents, the three remaining suggested comparables consist of one-story, single-family dwellings of masonry or frame construction located within six blocks of the subject. The improvements range in size from 1,366 to 1,470 square feet of living area and range in age from 50 to 111 years. The comparables contain one or one and one-half bathrooms and a finished or unfinished basement. Two comparables contain

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$ 19,790
IMPR.:	\$ 27,112
TOTAL:	\$ 46,902

fireplaces as well as a one-car or two-car garage. The improvement assessments range from \$10.76 to \$15.69 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$46,902. The subject's improvement assessment is \$27,112 or \$19.00 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with one-story, single-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements range in size from 1,359 to 1,393 square feet of living area and range in age from 53 to 56 years. The comparables contain one or one and one-half bathrooms, air-conditioning, a fireplace and a one-car or two-car garage. Two comparables contain an unfinished basement. The improvement assessments range from \$21.49 to \$23.64 per square foot of living area.

At hearing, the board's representative stated that the board of review's comparables are similar to the subject in size, design, age and amenities and indicated that the board of review would rest on the written evidence submissions. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the appellant's comparables one and two and the board of review's comparables to be the most similar properties to the subject in the record. These five properties are similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$10.76 to \$23.64 per square foot of living area. The subject's per square foot improvement assessment of \$19.00 falls within the range established by these properties. The Board finds the appellant's remaining comparable less similar to the subject in age and/or

construction. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
